

Michael Storey – Sales and Transport Director

Michael joined the company in November 1988 as a Laboratory Assistant.

His progression through the business has always been quality related which is reflected in the previous positions held such as Laboratory Manager and Quality Control Manager.

He has developed new products and markets for the mining business and increased sales by meeting or exceeding customer's expectations. Sales are now a key part of his role along with full responsible for quality control from all surface mines.

He manages the marketing function which includes contract management and invoicing.

Michael's formal qualifications are from Durham University Business School, NVQs in Management, and NEBOSH Health & Safety.
